1. Includes \$21.8 million and \$20.0 million, respectively, of income tax benefits primarily related to the reversal of valuation allowances against the Company's deferred tax assets and the impacts of U.S. tax reform enacted in Q4 of 2017.

Fourth Quarter 2018 Financial Summary:

- Consolidated sales increased 11.9% to \$217.7 million in U.S. dollars. On a constant currency basis, average daily sales increased 12.1%.
- Consolidated operating income grew 24.1% to \$13.9 million compared to \$11.2 million last year. On a Non-GAAP basis, consolidated operating income grew 2.5% to \$12.3 million.
- Net income per diluted share from continuing operations declined 61.6% to \$0.33. The fourth quarter of 2017 comparative period includes a tax benefit of \$21.8 million primarily related to the reversal of valuation allowances against the Company's deferred tax assets and the impacts of U.S. tax reform enacted in Q4 of 2017.
- Non-GAAP net income per diluted share from continuing operations grew 30.0% to \$0.26.
- Net income per diluted share from discontinued operations was \$0.02.

Year Ended 2018 Financial Summary:

- Consolidated sales increased 13.3% to \$896.9 million in U.S. dollars. On a constant currency basis, average daily sales increased 13.3%.
- Consolidated operating income grew 35.0% to \$61.7 million compared to \$45.7 million last year. On a Non-GAAP basis, consolidated operating income grew 26.1% to \$62.3 million.
- Net income per diluted share from continuing operations declined 24.7% to \$1.31. The full year 2017 comparative period includes a tax benefit of \$20.0 million primarily related to the reversal of valuation allowances against the Company's deferred tax assets and the impacts of U.S. tax reform enacted in Q4 of 2017.
- Non-GAAP net income per diluted share from continuing operations grew 44.2% to \$1.24.
- Net income per diluted share from discontinued operations was \$4.62, primarily related to the \$160.5 million book gain recognized on the sale of the Company's France business and the inclusion of eight months of France operating results in discontinued operations in 2018.

Barry Litwin, Chief Executive Officer, said, "The Industrial Products Group delivered another year of strong sales and operating performance, with record revenue of almost \$900 million, an increase of over 13% and generated improved operating margins. In addition, Systemax successfully established a single strategic focus towards organic and acquisitive growth within the industrial MRO market and declared more than \$350 million in dividends to shareholders since the beginning of 2018. In the fourth quarter, Industrial continued its solid top line performance as revenue increased 11.9% with growth across product categories and sales channels.

"I joined Systemax in early January, and my first two months have been a busy and exciting time, as I have met and listened to senior leaders and associates at each of our facilities. I believe we are well-positioned to win within the rapidly changing and competitive market for industrial product distribution. The Industrial business has a strong platform that is well suited to support its future expansion. Our ability to deliver a personalized digital end-to-end and high-touch sales and customer experience, offer an innovative product and service assortment, and be a rich destination for industrial products and MRO knowledge, service, and support provide the foundation for our continued success. We remain focused on enhancing customer engagement, growing revenue, driving long term cost efficiencies and improving profitability across the business. We maintain a solid balance sheet and will continue to seek potential acquisitions that offer synergistic customer and product growth," concluded Litwin.

At December 31, 2018, the Company had total working capital of \$117.8 million, cash and cash equivalents of \$295.4 million and excess availability under its credit facility of approximately \$71.1 million. At December 31, 2018, the Company reported a dividend payable of approximately \$243.5 million which was subsequently paid on January 3, 2019. Net of the dividend paid the first week of January, the company maintained over \$50 million of cash at year end.

The Company's board of directors has declared a quarterly cash dividend of \$0.12 per share to common stock shareholders of record at the close of business on March 11, 2019, payable on March 18, 2019. The Company anticipates continuing a regular quarterly dividend in the future.

Forward-Looking Statements

This press release contains forward looking statements within the meaning of that term in the Private Securities Litigation Reform Act of 1995 (Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934). Additional written or oral forward-looking statements may be made by the Company from time to time in filings with the Securities and Exchange Commission or otherwise. Any such statements that are not historical facts are forward looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and are based on management's estimates, assumptions and projections and are not guarantees of future performance. Forward-looking statements may include, but are not limited to statements regarding: i) projections or estimates of revenue, income or loss, exit costs, cash flow needs and capital expenditures; ii) fluctuations in general economic conditions; iii) future operations, such as, plans relating to new distribution facilities, plans for utilizing alternative sources of supply in response to government tariffs and trade actions, and plans for new products or services; iv) plans for acquisition or sale of businesses, including expansion or restructuring plans, such as our exit from and winding down of our North American Technology Group ("NATG") and European operations; v) financing needs, and compliance with financial covenants in loan agreements; vi) assessments of materiality; vii) predictions of future events and the effects of pending and possible litigation; and viii) assumptions relating to the foregoing. In addition, when used in this release, the words "anticipates," "believes," "estimates," "expects," "intends," and "plans" and variations thereof and similar expressions are intended to identify forward looking statements.

Other factors that may affect our future results of operations and financial condition include, but are not limited to, unanticipated developments in any one or more of the following areas, as well as other factors which may be detailed from time to time in our Securities and Exchange Commission filings: general economic conditions, such as customer inventory levels, interest rates, borrowing ability and economic conditions in the manufacturing industry generally, will continue to impact our business; distribution facility risks; the imposition of tariffs and other trade barriers, as well as retaliatory trade measures, have caused us to raise the prices on certain of our products and seek alternate sources of supply, which could negatively impact our sales or disrupt our operations; increases in freight and shipping costs could affect our margins to the extent the increases cannot be passed along to customers, and factors affecting the shipping and distribution of products imported to the United States by us or our domestic vendors, such as global availability of shipping containers and fuel costs; our reliance on common carrier delivery services for shipping inventoried merchandise to customers; our reliance on drop ship deliveries directly to customers by our product vendors for products we do not hold in inventory; delays in the timely availability of products from our suppliers could delay receipt of needed product and result in lost sales; our ability to maintain available capacity in our distribution operations for stocked inventory and to enable on time shipment and deliveries, such as by timely implementing additional temporary or permanent distribution resources, whether in the form of additional facilities we operate or by outsourcing certain functions to third party distribution and logistics partners; we compete with other companies for recruiting, training, integrating and retaining talented and experienced employees, particularly in markets where we and they have central distribution facilities; this aspect of competition is aggravated by the current tight labor market in the U.S.; risks involved with e-commerce, including possible loss of business and customer dissatisfaction if outages or other computer-related problems should preclude customer access to our products and services; our information systems and other technology platforms supporting our sales, procurement and other operations are critical to our operations and disruptions or delays have occurred and could occur in the future, and if not timely addressed could have a material adverse effect on us; a data security breach due to our e-commerce, data storage or other information systems being hacked by those seeking to steal Company, vendor, employee or customer information, or due to employee error, resulting in disruption to our operations, litigation and/or loss of reputation or business; managing various inventory risks, such as being unable to profitably resell excess or obsolete inventory and/or the loss of product return rights from our vendors; meeting credit card industry compliance standards in order to maintain our ability to accept credit cards; rising interest rates, increased borrowing costs or limited credit availability, including our own ability to maintain satisfactory credit agreements and to renew credit facilities, could impact both our and our customers' ability to fund purchases and conduct operations in the ordinary course; pending or threatened litigation and investigations, as well as anti-dumping and other government trade and customs proceedings, could adversely affect our business and results of operations; sales tax laws or government enforcement priorities may be changed which could result in e-commerce and direct mail retailers having to collect sales taxes in states where the current laws and/or prior interpretations do not require us to do so; and extreme weather conditions could disrupt our product supply chain and our ability to ship or receive products, which would adversely impact sales.
